

ALLIES STOP GERMAN  
ATTACKS IN FLANDERSHAVE YET TO WIN BACK GROUND  
LOST IN GREAT PRUSSIAN SWEEPBerlin Reports Austrian Successes  
and Capture of 12,000 Allied  
Troops in Turkey—Austrian Sub-  
marine Sinks French Cruiser Leon  
Gambetta.LONDON, April 28.—(10:30 p. m.)  
—“Our operations in conjunction  
with the French have definitely stopped  
the German attack.”

In these words Field Marshal Sir John French, commander-in-chief of the British forces on the continent, announces the conclusion of another German attempt to break through the allied lines around Ypres and along the Yser canal, which brought about one of the most sanguinary battles of the war. This, however, only brings to an end the first phase of the battle, for the allies have yet to win back the ground which they lost in the great German sweep. For this purpose they are now delivering counter attacks against the German line. Only at one place, Steenstraete, have the Germans managed to keep their footing on the western bank of the canal, while to the north of Ypres the positions remain much as they were. The allies making no claims to an advance there and the Germans reporting that all the British attacks have been repulsed. To hold these lines the Germans have brought up further reinforcements and Belgium behind them has been denuded of troops. The towns and villages in Belgium are being guarded by only a handful of sentries.

Germans Gain in Champagne.  
Fighting also continues in Champagne, where the Germans make claim to the capture of a strong French position; in the Argonne and the Woëvre, where the French say they are progressing; and in the Vosges, where both sides claim to be in possession of Hartmannsweilerkopf. It is probable that this campaign which commands the plains of Alsace has changed hands several times; this would account for the contradictory reports.

The Russians and Austro-Germans are heavily engaged in the region of Uzok Pass, in the Carpathians and in the direction of Stry, where an attempt is being made to strike at the Russian communications.

Report Austrian Successes.  
Berlin correspondents give the Austrians credit for the capture of a number of important heights near Uzok Pass and also assert that they have driven the Russians completely out of Bukovina. But this is not backed up by the Austrian official report, which says that in Bukovina no important event has occurred and simply speaks of Russian attacks being repulsed in the Carpathians. There has also been a renewal of activity on the east Prussian front, where the Germans report minor successes for their troops.

The sensational report that 8,000 of the allies' troops have been driven to the sea on the Gallipoli peninsula and that 12,000 were captured also comes from Berlin but has no confirmation from other sources. It is expected that the operations against the Dardanelles will proceed slowly, as the Turks are strongly entrenched and their wire entanglements and trenches will have to be shelled heavily before the troops can make any serious attempt to advance.

French Cruiser is Sunk.  
The French have lost the Cruiser Leon Gambetta, which was torpedoed by the Austrian submarine U-5 while leaving the Adriatic Sea for Malta. Only a small part of her crew were saved, all the officers, including the admiral, being drowned.

The reports as to the intention of Italy are as varied as they are numerous but the Italian embassy at London has authorized the statement that nothing is known of any impending change in the Italian policy. Nothing further has been heard of the German fleet in the North Sea and it is contended in official quarters here that it never left the mine fields off Helgoland. In the Baltic, however, German warships are busy and have stopped a number of Swedish steamers carrying coal from English ports to Sweden.

STATES F-4 WAS IN GOOD CONDITION  
AT START OF ILL-FATED CRUISEMail Report From Rear-Admiral  
Moore is Received at the Navy  
Department.

Washington, April 28.—Rear-Admiral Moore in a mail report received at the navy department today said the submarine F-4, when she started on her ill-fated cruise outside Honolulu harbor, was in good condition and that an accident a short time before referred to in widely circulated reports was only of "minor character."

Published reports that the submarine was known to have been in bad condition led to an investigation by the department. The accident which was referred to, wrote Admiral Moore, was of a very minor character. No report of it, however, is on file. The repairs mentioned consisted in replacing an armature that had been wet and was short circuited.

He added that by official report the condition of the vessel was "machinery good; batteries excellent; ship very good; personnel excellent."

SEND SECOND NOTE CONCERNING  
SINKING OF AMERICAN SHIP FRYEUnited States is Understood to Ac-  
cept German Proposition to Com-  
pensate Owners of Ship.

Washington, April 28.—A second note from the U. S. government to Germany concerning the sinking of the American ship William P. Frye by the commerce raider Prinz Eitel Friedrich is dispatched to Berlin today. It is understood to accept the German proposition to compensate the owners of the Frye, under the terms of the old Prussian-American treaties of 1799 and 1828, regardless of any prize court decision. These treaties provide that contraband belonging to the subjects of either party shall not be confiscated by the other in any case but may be detained or used only in consideration of payment of the full value.

While willing to agree to payment for the Frye as proposed it is understood the United States stands by its original protest against the destruction of the ship as a violation of international law and again denies that the cargo of wheat consigned to a British port was contraband.

No claim for the cargo was made because it was sold enroute to British dealers. An effort is said to have been made in the latter note to narrow the application of the old treaties so that no precedent will be created warranting the lodgement under them in future of claims against the American government under the favored nation clause. There have been varying constructions in the past of the treaties and it has been contended at times that while they were in force, they did not include Germany. The American note will be made public as soon as Ambassador Gerard gives notice that he has received its text, probably next Saturday.

GRANT WRIT RESTRAINING JURY  
TRIAL TO TEST THAW'S SANITYArgument on Question Whether Writ  
Should be Made Permanent Will  
be Heard May 7.

New York, April 28.—The appellate division of the supreme court today granted an application of the state attorney general for an alternative writ restraining Supreme Court Justice Hendrick from empanelling a jury to test the sanity of Harry K. Thaw. Argument in the question as to whether the writ should be made permanent will be heard on May 7th.

Justice Hendrick in a recent opinion decided that he had power to call in a jury to aid him in determining Thaw's sanity and announced that he would do so. The state authorities who are fighting to have Thaw returned to the Matteawan asylum for the criminal insane contend that the justice had no such power. The step taken today is the first in the announced intention of the attorney general to take the question up to the highest court in the state for final adjudication.

PRESENT EVIDENCE OF ELECTION  
FRAUDS TO ATTORNEY GENERALA Total of 16,000 Fraudulent Regis-  
trations is Given in Evidence Sub-  
mitted in Alameda County, Cal.

San Francisco, April 28.—Evidence concerning alleged extensive election frauds in Alameda county (Oakland) has been laid before the attorney general at Washington, United States District Attorney John W. Preston, announced here today.

A United States senator and representative were voted for at the primary. A total of about 16,000 fraudulent registrations is given in evidence submitted to Preston. Forty four of these, it is charged were in the municipal ward where only two persons lived. Others according to affidavits submitted, were from bill board locations, deserted lots and lake places. A one-chair barber shop furnished twelve registrations and from lodging houses they came by hundreds, it is charged.

Agitation in the form of citizens' meetings has been going on for some time. Those engaged in getting the evidence admitted that the Terry Haute, Ind., election fraud investigation had been largely instrumental in directing them to the United States district attorney here.

EXPECT DUVAL WEST TO  
REACH VERA CRUZ TODAY

Vera Cruz, April 28.—Duval West, the personal representative in Mexico of President Wilson, is expected to arrive in Vera Cruz tomorrow. Mr. West left Mexico City early this morning by automobile but had not arrived at Puebla at 5 o'clock this afternoon. As soon as he arrives there he will be brought to Vera Cruz by special train. He expects to sail for the United States Friday on the Steamer Morro Castle.

CHARGE VIOLATION OF  
HARRISON DRUG LAW

Danville, Ill., April 28.—Mrs. Julia Dixon was arrested here today by a deputy United States marshal and will be taken to Springfield tomorrow to face a charge of violating the Harrison drug law by selling opiates illegally to residents of Springfield. She is said to be the first person in Illinois, outside of Chicago, to be arrested for this offense.

UNION LABOR DELEGATES  
CANVASS ASSEMBLYMENPUT THEM ON RECORD REGARDING  
ATTITUDE TOWARD LABOR BILLSSome of Unionists Say They Have  
Sufficient Pledges to Pass Every  
Bill in Which They Are Interested  
Both Houses Pass Several Meas-  
ures.

Springfield, Ill., April 28.—Delegates to the extraordinary convention of organized labor which has been in session here for two days, concluded their business early today and spent the remainder of the day canvassing members of the house and senate to put them on record regarding their attitude toward the labor bills pending. Some of the delegates stated before leaving the city that they had sufficient pledges to pass every bill in which they are interested if all the assemblymen make good their promises.

Pass Several Bills.  
Both branches of the legislature got busy on the passage of bills today and ground out a considerable number.

The senate passed several small appropriation bills and the measure requiring registration of vital statistics in conformity with the federal system.

Senator Boehm's bill allowing legislators \$1,000 a session for secretarial hire in lieu of transportation formerly furnished them by railroads, was amended so as to make it \$500 and then advanced to third reading.

Most of the morning was spent by the house considering the state bar association bill giving the supreme court power to make rules of procedure for state courts. Leo O'Neill Browne fought the measure but his motion to strike out the enacting clause was defeated 25 to 78 and the bill was sent to third reading. The companion bill will be considered in the house tomorrow.

Recommend Racing Bill.  
A bill to regulate horse racing and provide for the pari mutuel system of betting, reached the senate calendar this afternoon from the revenue committee. The measure was reported out and recommended for passage as a substitute to Senator Denver's bill creating a state racing commission.

Under the provisions of the substitute measure a commission of five members is to be appointed by the governor each to hold office six years and to receive salaries of \$5,000 a year.

Immediately following an address by Mayor William Hale Thompson of Chicago, favoring the passage of the Frankhauser bill consolidating all of the Chicago park boards under one head, the measure was reported out and recommended for passage today by the house committee on municipalities.

Mayor Thompson made only a short address before the committee. He declared that he, members of the Chicago city council, the people and press of Chicago want the park consolidation bill passed.

The Moore bill increasing the salaries of legislators from \$2,000 to \$5,000 per term was reported out and recommended for passage by the house judiciary committee today. The proposed increase in salaries will affect members of the next general assembly and those elected thereafter but not the members of the present legislature. Besides increasing salaries the measure provides an allowance of ten cents for each mile necessarily traveled by members in going to and returning home from the state capital.

Report Out Pension Bill  
The teachers' pension bill providing pensions for public school teachers after 25 years of service, today was reported out and recommended for passage by the house education committee. The four bills, providing for the teaching of vocational education in the public schools, were referred to sub-committee with instructions to make a report on them next Wednesday.

The house committee on elections voted today to report out favorably a bill preventing candidates for the legislature from making pre-election pledges and providing a fine of \$200 to \$1,000 or imprisonment in county jail not to exceed sixty days or both.

President Edmund James of the University of Illinois, Dean Perciart of the agricultural college and several professors of the institution were before the senate appropriations committee this afternoon explaining the needs of the university. The university's attaches are anxious to retain the one mill tax law upon the statute books and are asking for appropriations that will practically consume the \$5,000,000 raised under the one mill tax law in the next two years.

Report Out Child Labor Bill.  
With minor amendments the house committee of agricultural affairs today reported out favorably the Shurtliff child labor bill. The measure regulates the employment of minors and provides that no one under the age of 14 years shall be employed. None under 16 years of age except in agricultural or domestic service during any month of a public school except that minors over 14 years may be employed when schools are closed.

None are to be employed under 18 years except in agricultural or domestic service without a working permit, which permits are valid only when schools are closed.

Mr. and Mrs. H. A. Edelbrock have removed from Kosciuszko street to a residence on West North street.

## War News Summarized

The French war office reports relative calm along the battle front in Belgium and the retention by the allies of the ground which they regained since the inauguration of German forward movement nearly a week ago.

This follows the British official statement which declares that the allies definitely stopped the German attack which has not been renewed. Counter attacks apparently are still being delivered by both French and British but these are of minor importance as compared with the general engagement around Ypres and the Yser canal which lasted five days.

The land operations in connection with the attack on the Dardanelles are taking their place at the forefront of the campaign. While Turkey continues to assert that the allied forces have been repulsed at various points with heavy losses and Berlin reports that 8,000 French and British soldiers have been driven to the sea and that 12,000 have been captured, the British war office has issued a statement declaring that in the face of continual opposition the allied troops have established themselves across the end of the Gallipoli peninsula.

The Austrian submarine U-5 torpedoed and sunk the French Cruiser Leon Gambetta in the Ionian sea. In the eastern war zone, according to Vienna the general situation remains unchanged.

ALLEGES ATTEMPTS TO  
BRIBE LEGISLATORSF. E. DAVIDSON OF CHICAGO IS SAID  
TO HAVE MADE CHARGEIs Cited to Appear Before the Bar  
of the House to Explain Charges  
—Davidson Denies Making Al-  
legation in Statement to Newspaper-  
men.

Springfield, Ill., April 28.—Charges that an attempt was made to bribe two members of the license committee of the lower house of the legislature in an effort to have house bill 406, reported out of that committee today, resulted in the citation of F. E. Davidson, an attorney and architect of Chicago, to appear before the bar of the house to explain the charges, which it is alleged he made.

Committeemen Receive Letters.  
According to a letter received today by each member of the license committee from Ernest McCullough, first vice-president of the Western Society of Engineers, with headquarters in Chicago, Mr. Davidson stated Monday at a meeting of the board of directors of the Western Society of Engineers, that "two members of the committee on license and miscellaneous told him that they had been offered \$2,500 each to vote for house bill 406 and was asked, jokingly, how much the architects would pay to defeat the bill, which is intended to license structural engineers."

The letters from Mr. McCullough were received by the members of the license committee shortly before the afternoon session of the house was called to order and threw the house into an uproar. The communications mentioned no names.

Insisting that everyone of the 21 members of the license committee are placed in a serious position because of the charge contained in the letters, Representative Vickers, a member of the committee, offered the resolution citing Davidson to appear before the house and "give testimony as to the source and substance of the said charge."

Denies Making Charges.  
In a statement to newspaper men tonight Mr. Davidson declared he had made no charges that bribes had been offered to any members of the license committee.

He stated that he and Mr. McCullough had come to a "parting of the ways" some three years ago and that since that time Mr. McCullough had been doing everything in his power to discredit him with members of the legislature. Mr. McCullough's letter to the legislators, he said, was one of the attempts at discrediting.

AEROPLANE BOMBARDS  
ZEPPELIN ESTABLISHMENT

Paris, April 28.—(9:22 p. m.)—A despatch to the Havas Agency from Romanshorn, Switzerland, says: "An aeroplane flying at a great height, dropped six bombs on the Zeppelin establishment at Friedrichshafen. Despite a violent shrapnel and machine gun fire it remained in the vicinity of the balloon works for half an hour and then retired safely after accomplishing its object. The extent of the damage done by the aeroplane is not known."

## KILLS SELF BY GAS EXPLOSION.

Rock Island, Ill., April 28.—F. M. Ossinger, sixty years old, today filled a room in his house with gas and lighted a match during the absence of his wife. He was killed and the house was partly wrecked by the explosion and fire that followed. It is believed that Ossinger took his life because of domestic troubles.

PROSECUTION RESTS IN  
CASE AGAINST LAWSONSTATEMENT FOR DEFENSE WILL BE  
MADE THIS MORNINGAttorneys for Defendant are Unable  
to Estimate Length of Time That  
Will be Required for Taking  
Testimony.

Trinidad, Colo., April 28.—The prosecution rested its case today against John R. Lawson, labor leader charged with the murder on October 25th, 1913, of John Nimmo, a deputy sheriff. The statement for the defense will be made at the opening of court tomorrow and will be followed by the introduction of evidence in behalf of the defendant.

Opened Case Last Saturday.  
The state opened its case last Saturday. Its testimony was along lines intended to prove:

First: That Nimmo was killed in a battle between striking coal miners and deputy sheriffs near the Ludlow tent colony.

Second: That the fight was started by strikers who fired upon deputies who had gone toward the Ludlow station to meet a train.

Third: That Nimmo was shot from a railroad cut used as a rampart by strikers.

Fourth: That John R. Lawson was at the railroad cut approximately at the time Nimmo fell.

Indicate Lines of Defense.

Questions asked by the defense attorneys on cross-examination were taken to indicate that they will endeavor to throw doubt upon the credibility of the testimony connecting Lawson with the party of strikers said to have been at the railroad cut. It was indicated that an effort may be made to show that the state's witnesses who testified they saw Lawson at the cut were themselves not in the vicinity until after the battle. Other questions pointed to the probable attempt to prove that Lawson himself was opposed to violence and that arms furnished the strikers were secured only for the purpose of defending the tent colony against attack.

A large number of witnesses were subpoenaed for the defense. Attorneys for Lawson were unable late today to make an estimate as to the length of time that would be required for taking testimony.

It was considered probable that Lawson himself would take the stand.

HARVESTER COMPANY DISCLAIMS  
KNOWLEDGE OF CARRANZA CHARGESFormally Denies it Sought Advan-  
tages Over Competitors in Yucatan  
in the Purchase of Sisal Grass.

Washington, April 28.—The International Harvester company today formally denied to Secretary Bryan that it had sought advantages over competitors in Yucatan in the purchase of sisal grass and disclaimed knowledge of charges made that one of its agents had used the name of the state department to further its interests.

On request of Luis Cabrerera, General Carranza's secretary of the treasury, complaint was lodged with the state department against methods said to be employed by Avelino Montes, an agent in Yucatan or the harvester company. The complaint charged that Montes used the name of the state department to force conditions in negotiations between producers and consumers of sisal and had attempted to pay for the fibre in unrecognized money issued by insurgents.

George H. Rainey, representative of the company, came to Washington from Chicago today and conferred with Secretary Bryan.

FLOOD AT FORT WORTH DRIVES  
MANY FAMILIES FROM HOMESThousands of Dollars Damage Has  
Been Done to Crops Near the City  
—Expect Falling Stage Today.

Fort Worth, Texas, April 28.—At dark tonight the crest of the Trinity river flood waters had not been reached and the government weather bureau reported the waters still rising. A supplementary report announced a falling stage at the Lake Worth dam, eight miles above the city and it is expected the flood's crest will pass here before midnight. Emergency levees have been hastily constructed in the lowlands of the city through which the Trinity flows but many families have been forced to abandon their homes. Relief is being given these sufferers. Thousands of dollars damage has been done crops near the city.

At Gainesville, Texas, a natural gas main conveying gas to Gainesville, Denison and Sherman was washed out and all three cities were without gas tonight. Red River, seven miles north of Gainesville, is the highest in ten years.

## ROBINSON DENIES REPORT.

Philadelphia, April 28.—Manager Robinson of the Brooklyn team tonight emphatically denied that a deal between New York and Brooklyn had been made. Robinson also declared that to the best of his knowledge, no negotiations affecting Zach Wheat were even pending.

BISHOP RICHARD COOKE HEADS  
BOARD OF METHODIST BISHOPSBishop Wilson is Elected Permanent  
Secretary at Initial Session of  
Semi-Annual Conference.

Des Moines, Iowa, April 28.—Bishop Richard J. Cooke of Portland, Ore., was chosen president of the board of Methodist bishops in the initial session of the semi-annual conference here today. Bishop Luther B. Wilson of New York City was elected permanent secretary. Today's session was executive.

Among the late arrivals during the day for the conference were Bishop Earl Cranston of Washington, D. C.; Frederick J. McConnell of Atlanta, Ga.; Francis J. McConnell of Denver and W. F. Oldham, former missionary bishop of India and now general secretary of foreign missions of the church. A world wide movement for evangelization was outlined by Bishop Theodore S. Henderson of Chattanooga, Tenn., and definite plans were expected to be made during the conference for the adjournment next Monday. It was proposed that the church shall inaugurate a campaign to increase the membership of the church 500,000 in five years. The increase in three years has been 322,000. The European war and its probable results, China and the open-door policy and the evangelization of India are some of the more important problems to be brought before the conference.

DOHNEY IS FIRST OF INDICTED  
OFFICIALS TO GIVE BONDBail for Business Agent Charged  
With Violation of Anti-trust Law  
is Fixed at \$5,000 Each for Two  
Counts.

Chicago, April 28.—John Dohney, business agent for the Boiler Makers Union was the first of the 100 contractors, union officials and corporations indicted in the federal courts charged with violation of the Sherman law, to come into court today and give bonds. The bail was fixed at \$5,000 each for two counts.

C. W. Fray, business agent of the Machinists' Union, gave \$5,000 bonds and later two contractors, Frank Horton and John Farmer, appeared and arranged the same amount.

The men will be allowed several days in which to appear during which time no capias or bench warrants will be issued. Those who fail to fix bonds within a reasonable time will be arrested. Indication of the line of defense for the union agents was seen in a brief filed in support of the demurrer to the indictments against Michael Artery, Michael Galvin and John Miller and other agents indicted several months ago. The brief contends that under the Clayton anti-trust act officers of labor organizations are expressly exempted from the provisions of the Sherman law.

SEND NEARLY HALF BILLION  
IN SUPPLIES TO BELGIUMTotal of Food and Clothing Already  
Shipped and Arranged for Ship-  
ment is 688,082 Tons.

New York, April 28.—Food and clothing to the value of \$49,174,519 had been sent by the commission for relief in Belgium in the commission's ships to Rotterdam and distributed throughout Belgium up to April 23, according to the commission's report given out here today. The total of food and clothing already shipped and arranged for shipment is 688,082 tons, the statement says. The amount of foodstuffs required to keep the Belgian population alive has steadily increased since hostilities began the statement continues, and the present monthly shipments absolutely necessary aside from the small quantity of potatoes and vegetables obtainable are as follows:

Wheat or its equivalent, 60,000 tons; rice, 10,000 tons; peas and beans, 5,000 tons; bacon and lard, 1,200 tons; preserved meat, 1,200 tons; preserved fish, 1,200 tons; condensed milk 300 tons.

## SENTENCED COUNTERFEITER.

Freeport, Ill., April 28.—Theodore Brink, a blacksmith of Dixon, Ill., who said he had begun making counterfeit money to escape the importunities of his creditors, was sentenced today to fifteen months in the federal prison at Leavenworth, Kansas.

T. R. TELLS WHY HE  
CONFERRED WITH PLATTSTATES HE REALIZED THE "EASY  
BOSS" CONTROLLED ORGANIZATIONConsidered the Senator's Wide Ex-  
perience Valuable—Uses Every  
Movement at His Command to  
Make His Words More Forceful.

Syracuse, N. Y., April 28.—Theodore Roosevelt on this, his seventh day upon the witness stand, amplified the answers he made to questions asked to him upon cross-examination by counsel for William Barnes, plaintiff in the suit for libel against the former president. He told why he conferred with United States Senator Thomas C. Platt, while governor, vice-president and president of the United States. He related how he threatened Senator Platt just prior to the Philadelphia convention of 1900 that he would fight for the New York gubernatorial renomination if the "easy boss" made good his own threat to keep him out of the race as punishment for not accepting the nomination for vice-president.

The colonel told of these things and many others upon re-direct examination. The minute his cross-examination ended he sat up alertly in his chair and the solemn expression that had enshrouded his features during the last two days of his cross-examination gave way to a jolly smile.

He leaned toward the jury; he squared his jaws; he raised his voice; he lifted his open hands and brought them down upon his thighs. He pounded with clenched fist upon open palm. He used every gesture, every movement at his command to make his words more forceful. And as he stepped down from the witness stand at the end of the day he laughingly said: "I am not tired."

Platt Controlled Organization.  
Speaking of Senator Platt the former president of United States said that he conferred with him on matters legislative, administrative and political, because he considered the senator's wide experience was valuable and because he realized that the organization controlled the legislature and that the senator controlled the organization.

"I did not want to disrupt the Republican party," said the colonel, "as long as I did no wrong act in preventing it. Then, too, I wanted to get affirmative action in Albany. I could prevent wrong being done if I broke with them but I could not get affirmative right done. When there was a doubt in my mind I conferred with the senator, head of the organization. While at the same time and primarily, doing what the interest of the state demanded, I found that when there was apt to be an issue between me and the state senate it was advisable to go where the power lay and not to talk to men who merely carried out the bidding of Mr. Platt. I consulted Mr. Platt on all important matters that came up."

Tries to Explain Statements.  
The colonel was asked many questions about the correspondence that passed between him and Senator Platt and which was read during his cross-examination. He tried to explain to the jury statements made in correspondence about the franchise tax; about the harbor island; about appointments; about the architect Brownbridge and the chance he wanted to bid on government work; about the breakfast meetings with the senator and about the disagreement over the renomination of Governor Hughes. He corrected his testimony about his campaign of 1904; he claimed as his own, campaign speeches in which he said things about Mr. Barnes.

May Finish Today.  
Tomorrow may be his last day on the stand. His own counsel said tonight they would conclude the re-direct examination of their client early in the forenoon session. The consensus among the attorneys seemed to be that the additional cross-examination by counsel for Mr. Barnes would be brief. At the conclusion of proceedings today Colonel Roosevelt had been on the witness chair for a total of nearly thirty-five hours.

Mr. Bowers asked Colonel Roosevelt about several matters introduced in cross-examination and then said:

"Did you converse with Senator Platt about the vice-presidency?"  
"Yes."  
"State the subject of your conversation about this matter."  
"We had several talks from April until the night before I was nominated," said the colonel and he continued in reply to a series of questions as follows:

"Senator Platt urged me to take the place. Our chief conversations took place in Philadelphia, although in the spring we talked about the thing two or three times. At first Senator Platt did not indicate his feeling in the matter. But toward the end he insisted that I must take the place. He told me that the New York delegation would place me in nomination. I said I would not take it. These conversations continued and in Philadelphia the thing came to a head."

Letter is Read.  
The letter bearing on the situation was then read. The colonel

The special efforts being made to get the "fourth district judge" bill through the legislature seem thus far to have been unavailing. The plan of the advocates of the measure was to so rush the bill that it might be effective for the coming election. It is claimed that in many districts the amount of court business is so excessive that with only three judges the work is continually far behind.

Labor representatives who attended the "emergency convention" at Springfield did so with the avowed purpose of making an impression on the legislature, in favor of labor measures. More than a thousand attended the convention which was called because the leaders had the feeling that those proposed laws which labor is supporting were "slipping." Labor representatives declare that the charge made that present of disastrous legislation of the past resulting from labor influence is false and insist instead that the fault lies with misdirected methods used by capital. The minimum wage law and the eight hour law for women are two of the measures for which organized labor is making efforts in this assembly. There is a vast difference of opinion over the eight hour law for women as many believe it would not be beneficial to the workers themselves.

#### THE FINE ITALIAN WAY.

The Italians in New York are said to have solved the problem of eugenic marriages in a tactful, effective way. The Italian mother and father usually ask the young man who seeks the hand of their daughter whether he is insured. If he is not insured, they agree him to take out insurance before the wedding and sometimes they insist upon it. The "bridegroom's policy" is considered a certificate of perfect health and so the need for any talk about a physical examination is taken away with. No doubt the insurance companies believe the Italian way is the best yet.

#### EVEN IN NOME.

The growing interest in the liquor question has just been evidenced by the statement that a special election has been called for May 5 to vote on whether Nome shall continue to license saloons. Petitions requesting the election were presented to the United States District Court by the dry forces, who are waging a vigorous campaign.

Women now vote in Alaska and much attention is being given their attitude by both sides, as it is believed their votes will be an important factor in deciding the issue. Nome, which is the metropolis of the Bering Sea region, has a winter population of 2,500, which grows in summer, when navigation is open, to more than 5,000.

#### Blue Grass vs. Dandelion.

The editorial writer in the Kansas City Star who penned the following must have had a glimpse of Jacksonville lawns and noted the ruthless manner in which the dandelion has taken possession.

"Before some one may rise in defense of the dandelion, comes now counsel for the blue grass in forehanded rebuttal and begs leave to state that the dandelion is a hog. As a thing of beauty, such as a dandelion might allege in his answer to your petitioner's plea, the dandelion is too numerous to attain that end.

Your petitioner, Blue Grass, admits that scattered about a lawn in companies or even in battalions the said dandelion may be considered beautiful, may be considered as a golden ornament giving variety to the pure green of grass and shrub, but if the court please, the said dandelion never has been content to live as an honorable citizen, as a lover of his brother-plants and a sharer in their privations and in their blessings of showers, sunshine and fertile plot. Instead, he always has been an aggressive fighter for monopolies. Always has he constituted himself a trust and always has he sought to monopolize, absolutely own, occupy and control every fair mead.

"Once a corporate's guard of his vast army has set foot on lawn or meadow, then has he followed always with army divisions without end and to the sole purpose that he might occupy all the land and starve out the family and dependents of your petitioner. Therefore, comes now your petitioner in forehanded rebuttal and repeats said dandelion is a hog. Since a hog as to endanger the very life of your petitioner, Blue Grass, and the beauty of your petitioner's and the country's own fair city.

"Wherefore, your petitioner prays the court to decree that the entire populace join in defense of your petitioner against said dandelion. Your petitioner further asks

that your honor promote by decree of his court, or by other means, dandelion parties of children, of parents, of lords and ladies, and that these dandelion parties gather with quip and jest to make the work flow lighter, and with knives, gougers, millhooks, lawn mowers, sulphate of iron and other agents to dig out, spray out, cut out, gouge out, any way to get out the said hog dandelion."

### U. S. HEALTH SERVICE SURVEY OF EXPOSITION

(From Weekly Public Health Report.)

Major Surgeon C. C. Pierce of the United States Public Health Service, who is in charge of the sanitary supervision of the Panama-Pacific International Exposition, reports that under his direction a census has been taken of all employees living within the exposition grounds and a sanitary survey made of the grounds and buildings. By March 31 most of the employees on the grounds had been inoculated with typhoid vaccine.

The exposition authorities have installed a complete plant for pumping ground water into wooden reservoirs constructed above the surface of the ground. From these reservoirs the water passes through a sand filter and after filtration is treated with liquid chlorine. The water is then pumped to a reservoir from which it is distributed to all points in the grounds. The water plant is expected to furnish from 1,500,000 to 2,000,000 gallons per day.

The employees within the grounds are kept under careful supervision and any cases of communicable diseases which develop are immediately isolated.

Precautions are being taken to prevent the breeding of flies or the accumulation of stable refuse or other material in which flies lay their eggs. Such materials are treated with a mixture of carbolic acid, rosin and caustic soda for the purpose of killing fly larvae and they are removed at short intervals. Restaurants and other places where garbage is likely to collect are provided with metal garbage cans with tight fitting covers.

These receptacles for garbage are taken away every night, their contents incinerated and the cans disinfected with steam before their return. Especial attention is given the maintenance of both the pay and free toilets throughout the grounds. In each of these are displayed placards relative to the prevention and cure of venereal diseases. Attention is being also given to all foods sold on the grounds for the purpose of ascertaining that all such is sold by persons free from all disease and is entirely pure and wholesome.

### T. R. TELLS WHY HE CONFERRED WITH PLATT

(Continued from Page One.)

continued by saying with great emphasis:

"I wanted to be governor because there were one or two jobs to do. In Philadelphia Senator Platt, having met with an accident, was confined to his room. He sent for me and I went to him. He told me I must accept the nomination as vice-president. He said if I didn't I certainly would not be re-nominated for governor. I said: 'All right, we'll fight it out then next fall.'"

"Then I went down stairs and told the New York delegation if they nominated me I would consider it an assault upon me to get out of the governorship. I told them I would fight for the re-nomination in the fall."

"While I was talking Senator Platt sent a messenger. I think it was his son Frank, for me. The messenger told me the senator wanted to see me again and that I must be under a misunderstanding. So I went to see the senator."

**Platt Withdraws Decision.**  
"This time, Senator Platt said I had misunderstood him and that he would withdraw his decision about the vice-presidency. He said I would be re-nominated for governor in the fall and that the New York delegation would put Timothy Woodruff in nomination for vice-president."

Then the colonel hesitated, smiled broadly and said:

"And the New York delegation did not nominate or second me."

The colonel did not mention that Timothy Woodruff was then lieutenant governor of New York.

Mr. Bowers then called the attention of the colonel to telegrams that passed between him and Senator Platt, regarding the exemption from the franchise tax bill of grade crossing of steam railroads.

"The New York Central was interested," the colonel said in reply to a question.

After a few other questions had been put to him the colonel said this:

"I sent for the tax commissioners and asked them about it. They said at first that they were neutral. I told them they could not be neutral and that they had to be either for or against the exemption. Then they told me they were against it. After I received Senator Platt's telegram urging me to favor the exemption I wrote him that I would have been glad to listen to any arguments had not this message been received too late."

At this point it was agreed that the colonel should continue as a witness in the morning and the recess was taken.

### PRESIDENTS RETURNED FROM FEDERATION COLLEGE MEETING

Federation Endorses Amendments Now Introduced in State Legislature—Meet Next Year at Loyola University.

President C. H. Rammelkamp and Pres. J. R. Harker have returned from Galesburg where they attended the meeting of the Federation of Illinois Colleges. Dr. Harker read a paper on "The annual losses in student enrollment during college course." Pres. Rammelkamp as chairman of the committee on the relation of the colleges of the federation to the state education, spoke of the proposed amendment of the state certifying laws, one making the high school certificate valid in the 7th and 8th grades and the other making second grade certificates renewable indefinitely. Both of these bills have been introduced in the legislature. The federation endorsed both of these proposed amendments. The committee also recommended a revision of the requirement for the second and third grade certificates.

One of the principal addresses of the occasion was that of Monday evening by Supr. Blair, who spoke on "The Certifying law and colleges." His remarks were enthusiastically received.

A committee was appointed to investigate and report on the use of scholarships in colleges and universities in order to secure students.

The election of officers follows:

President—G. M. Potter, president Shurtliff college (re-elected).

Secretary and treasurer—Prof. H. E. Griffith, Knox college.

The delegates were entertained at luncheon by the management of Lombard college, followed by an auto ride about the city.

The meeting next year will be held at Loyola university, Chicago.

### GREECE APPROACHES ENTENTE POWERS

London, April 29.—(3:12 a. m.)—Telegraphing from Sofia the Daily Mail's correspondent says:

"The Greek government which a short time ago refused the invitation of the entente powers to join the war has now approached them with a proposal for Greece's definite co-operation. The allied powers however are not so eager, especially as Greece demands much and offers little. The entente powers' reply was that unless Greece made more definite and satisfactory proposals negotiations with her would be impossible."

London, April 24.—(Correspondence of The Associated Press)—The Camps Library Committee, which aims to furnish reading matter for all the British soldiers at the front and in training, and which has its headquarters in a big garage adjoining the House of Commons, has received over a hundred thousand books from contributors all over the British Isles in the past three months. A large number of volunteer workers are kept constantly employed in sorting, repairing and distributing the various volumes. One room is devoted to old books, another to heaps of magazines, another to the "Book Hospital," where a dozen young women spend their hours stitching and pasting the paper veterans' back to their second youth. In another room a row of helpers stand packing volumes in the special boxes which within a few days will be in the trenches. All sorts of books find their way to the Committee. Contributors seem to think that anything between two covers is acceptable. Several out-of-date guides to the London art galleries have been sent, not to mention sales of catalogues, telephone directories, and railway time tables. A number of title deeds to some far land in the north of England were swept by accident into one parcel, and many love-letters have been found between the pages of the books.

A large package of candles is enclosed with every bundle of books sent to the continent, so that the man can read when daylight fails.

Americans are Hopeful Despite Severe Hardships and Sharp Criticism.

London, April 28.—Under severe handicaps, in which motives were questioned, the propriety of their work was questioned, and the shadow of race prejudice was allowed to fall on their negotiations, the Women's congress at The Hague will be opened tomorrow. The American contingent, which has assumed the leadership in welding the women delegates into unity in the face of bitter criticism, is hopeful that the congress will be able to register the united protest of the women of the world against the war. The difficulties encountered were not unexpected. Long ago it was apparent that the women of Russia, England and France believed the suggestion was a part of the pro-German propaganda. While this belief is not altogether overcome, and may curtail the effectiveness of the first women's peace conference, the sincerity of the American women who have come in force to aid in the congress has had great influence in clearing away suspicions and establishing the possibility that Mother Eve may save Abel from Brother Cain.

Miss Jane Addams of Chicago will share honors with Queen Wilhelmina of Holland at the opening session of the congress. Miss Addams, whose work is fully as well known in Europe as in her home city, will preside. It is expected that the queen will attend and address the congress.

#### The Program.

1. A resolution with a view to bringing about an armistice in order to discuss terms of peace in the present European war.

2. The formation of an international court of arbitration will be urged, for the discussion of questions arising between nations before they proceed to hostilities.

3. An international rule will be drafted, compelling all nations to come before this court, and providing for international action against any country taking up arms without applying to the court.

4. Control of foreign policies by the people of a nation instead of by groups or parties, will be advocated. 5. A resolution will be introduced forbidding the annexation of any territory without the consent of the men and women forming the population of the territory itself.

6. A resolution declaring war an excess of insanity, brought about by suggestion which leads people to destroy in a short time what it has taken centuries to build up, will be put before the congress.

7. A motion declaring women responsible for war because they do not exercise their undoubted influence to prevent it, and claim full political rights. So that they may be able to bring that influence to bear, will be debated. There are differing views on this question, which injects the suffrage question into the peace question.

8. A motion calling attention to the sufferings of women brought about by war will be adopted.

#### Miss Addams' Views.

"We do not expect to end the war. We have not much hope that our meeting will have this immediate effect; but we do believe that, as women, as mothers of men and of soldiers, we are in a position to meet, without bias, and formulate plans for the settlement of international troubles.

"The present system of diplomacy has failed; it has plunged the world into a war the like of which has never before. The peace congress is called by no organization; it is a spontaneous movement upon the part of the women of all nations.

"The congress may have one of three results: It may be dangerous for things may be said which should not be said, and this is a thing that must be guarded against. It may be futile, but we hope it will not. And it may be productive of results far-reaching and permanent."

## COCOANUT OIL FINE FOR WASHING HAIR

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsed coconut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulsed coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

## OLD JACKSONVILLE

### The Kellogs--First Settlers

By Ensley Moore.

Member of Illinois State Historical Society.

Illinois was admitted into the Federal Union in 1818, Morgan county was established in 1823 and Jacksonville was laid out in 1825.

The first settlers in Morgan county were Col. Seymour Kellogg and his brother, Elisha Kellogg. They came to a point in this county about seven miles northeast of where the city of Jacksonville now is—their land being in township 15, north, range 9, west. They probably reached here in the fall of the year, but the year was 1818. Illinois was not full-fledged as a state until Dec. 3, 1818. It is said there were no white settlers north of Edwardsville, Madison county, at that time. Probably there were whites at Fort Dearborn, (Chicago) and at Ft. Clark (Peoria) at that time.

Eames' History of Morgan county names Col. Seymour first of the brothers, and gives Elisha no title. But Seymour was one child (between them) older than Elisha, and Seymour was known as Colonel Kellogg.

The Kellogg family history, written by Frank E. Kellogg, grandson of Elisha, in 1907, says: "Captain Elisha Kellogg, was born in Sheffield, Mass., Nov. 30, 1784, died in Plum River, Ill., Aug. 24, 1842. He served as a captain in the war of 1812. He was also a soldier in the war against the Tonawanda Indians in Illinois. He was the captain of the surveying party sent by the government to survey the Tonawanda Indian lands, including the territory where the city of Springfield now stands. He was also a school teacher. He was a total abstainer from tobacco and alcoholic liquors." Mr. Kellogg may be just right about this Tonawanda Indian business, but it sounds more like the neighborhood of Buffalo, N. Y., than of Illinois. Frank E. Kellogg goes on to say: "(Speaking of Elisha) His first wife was Elizabeth Derrick, born in New York state, May 2, 1792, died in Illinois, May 15, 1832, and was buried eight miles west of the city of Jacksonville where her grave-stone may still be seen. She was a woman of superior natural abilities.

Elisha Kellogg and his wife Elizabeth, with their five oldest children, had the distinction of being the first white settlers in Morgan county, Ill., having settled there in the year 1818. Their children were 1, Philander; 2, Orville Enos; 3, Abigail Elizabeth; 4, Florentine Erwin; 5, Sophia Emeline; 6, Angeline E.; 7, Sarah Angeline; 8, Benjamin Franklin Ephraim. On March 10, 1833, Elisha Kellogg was married to his second wife, Mrs. Mills, a widow with five children, three at home, and two married. There were no children from this marriage."

In Eames' History, he says: "Mrs. Asenata K. Munday, daughter of Seymour Kellogg, writing from Brighton, in 1879, says of her father and their frontier home: 'He then built a log cabin, clap-board roof and ground floor, and no doors or windows, and twenty miles to any neighbor. Indians, wolves, wild turkeys, and hogs were all around us. He stayed there one winter and came near freezing to death having gone with two yoke of oxen twenty miles for a load of corn. A severe snow storm came, and losing his way he lay out one night, and turned his oxen loose. They found their way home. Search was made by an uncle, who came out with us and my brother then thirteen years old. They found my father with his feet frozen and had hard work getting him home, where he lay for months unable to walk. That spring we moved west of Jacksonville near the creek. We caught fish from the Mauvalsterre, that ran over the prairie out near the high mound, where Mr. Strawn located a beautiful place. My father was appointed state surveyor, and he laid out the towns of Jacksonville, Exeter, Naples, Beardstown, Meredosia, Perry, Griggsville, and many other places. He kept the first store in Exeter, was P. M., J. P., and held other positions. While living in Exeter he went to St. Louis for goods, going in a wagon, for there was no railroads in those days. One week after arriving there he was buried from the residence of Mr. Charles Collins, his son-in-law. The first preaching in Morgan county was at our house. The first school was taught by my sister in a log cabin without doors or windows in 1821."

Eames says further: "In January, 1820 the Kelloggs entertained three explorers, from New York, David Berdan (father of Judge Jas. Berdan) George Nixon, and Isaac Fort Roe; and sold them corn for their horses, which had been wagoned from Madison county. Then there was neither churches nor schools. People lived in tents and cabins. There were no roads or bridges and most of the land was being held by the general government."

It is interesting to consider the ancestry of these Kelloggs, who opened up Morgan county to civilization. Frank E. Kellogg says of them: "In the language of Isabel T. Ray: 'The first of the Kellogg family known in America was Lt. Joseph Kellogg, born in 1627, and died in 1708, aged 80 years. He came over from Scotland and settled in Farmington, Conn. in 1651 and finally located in Hadley, Mass. in 1652. He was a weaver by trade, and was a lauded proprietor. In 1663 he was made a sergeant in the

militia, ensign in 1678, and lieutenant in 1679. He took part in the Indian skirmish known as 'The Falls Fight' in 1676. At that time he was the ferryman at Hadley, Mass., which business was kept in the family for one hundred years. He frequently served as select man in the town of Hadley, and must have been well-to-do, for in 1673, his second wife was before the court for not dressing in silk attire according to the prescribed custom of her station. However, she was not found guilty of a misdemeanor."

Stephen Kellogg was next in line, born April 9, 1668, and died June 5, 1722. Lived at Westfield, Mass. His wife was Lydia Belding. They had ten children of whom Silas was the eighth. Deacon Silas Kellogg, next in line, was born April 7, 1714, died January 24, 1792. Married Ruth Root May 10, 1739; she died Jan. 17, 1817, aged 96 years, the greatest age of any in the ancestral line. They lived at Sheffield, Mass. They were both highly cultured people. They had nine children, the second of whom was Enos.

Enos Kellogg was fourth in the ancestral line, born Dec. 24, 1742, died in 1803. Wife, Abigail Seymour. Lived at Sheffield, Mass., Hubbardston, Vt., and Batavia, New York. Their children were: Lucina, Oramus, Abigail, Ruth, Enos, Seymour (spelled Seymour by Eames), Hilda, Elisha Sophia and Ira."

We have now reached Capt. Elisha Kellogg, referred to above and fifth in the family line to which Frank E. belongs, but he was a brother of Seymour, called Col. Kellogg by Eames. Clearly Seymour and Elisha came out together, and both were first settlers, if that statement is admissible. Surely, no other whites beat them to this base.

It is interesting to note how the Kelloggs got from their home at Batavia, N. Y. to Illinois and what was to be Morgan county. They came by wagon with their effects and provisions to a point on the Allegheny river, in New York (presumably Olean was the place). There they secured a flatboat and drifted down into the Ohio river at Pittsburg, and from there on down the Ohio to Shawneetown, Ill. where they left their boat, and used their wagons to Carmi, in White county. From there they came over land to this region. As they floated down the river the Kelloggs fell in with the Ambrose Collins family, from Ontario county, New York, and they journeyed along together. The two families came over land to Edwardsville, Madison county, where the Collins' stopped. Later on Mrs. Minerva Richards, a daughter of Ambrose Collins, became a resident of Jacksonville.

The Kelloggs have now been located in Morgan county as its first settlers, and

"When can their glory fade?" But, they were pioneers, and their story is a long and interesting one. It will require another article in this series to do them justice.

### HEAR SUIT AGAINST

MARY PICKFORD.

Los Angeles, Calif., April 28.—The suit brought against Miss Mary Pickford, the moving picture star, and her mother, Mrs. C. Pickford, for damage done by Mary's pet dog in a Los Angeles house, will be heard here tomorrow. Mrs. Florence S. Porter sues for \$111.44 for damage alleged to have been done to tapestry, furniture and floors by the dog, and the sum includes one month's rent. Miss Pickford, who is said to be the highest salaried movie star in the world, denies the allegations made by her former landlady, and will fight the suit in court.

### THE SUN

The sun is a success, though, sometimes, we confess, it shines so long, with rays so strong it fills us with distress. Up in its vault of blue it shines on me and you, and breeds the flies, and roasts and fries, till in our fat we stew. Beneath a sun-cooked sky, the crops go all awry; the peas and beans, the corn and greens, turn up their toes and die. Earth's surface cracks and shrinks, dry are the wells and sinks; and cattle bawl and caterwaul for cool refreshing drinks. Ah, then, with anguished eyes, we view the sizzling skies, and cry, "Old Sol, you've cooked us all, the whole world bakes and fries." We murmur and repine, and say, "It would be fine, if that blamed sun would just get done, and let some other shine!" But when the sun's concealed, behind a cloudy shield, and sends no ray, day after day, to light the sodden field, how sad and gloomy then are all the sons of men! "We'd give four bones," all mankind groans, "to see the sun again!" The Spring is one of clouds, so gloom the land enshrouds, and grief is rife in every life, and wrath inspires the crowds.

### EUROPEAN WAR NOTES

Nancy, France April 28.—Via Paris—(5:10 p. m.)—A German aeroplane attacked Nancy today. Three bombs were dropped in the center of the city. Three persons were killed and a number of others were injured seriously.

Berlin, Via London, April 28.—(11:35 p. m.)—A well authenticated report has reached Berlin that the left wing of the allies' landing force on the Gallipoli peninsula which Gen. Leman Von Sanders the German commander of the Turkish forces reported yesterday was holding out has now surrendered to the Turks.

Berlin, Via London, April 28.—(9 p. m.)—Hail Bey, former president of the Turkish parliament who is now in Berlin received a telegram from Constantinople last night stating that 3,000 French and British soldiers had been driven to the sea and that 12,000 had been captured by the Turks as a result of the attempt of the allies to land forces to attack the Dardanelles fortifications.

Berne, Switzerland, Via Paris April 28.—(6:20 p. m.)—The military station at Romanshorn this morning reported the appearance of a squadron of allied aviators making for Friedrichshafen where the headquarters of the Zeppelin dirigible balloons is located.

Soon afterward a lively cannonading lasting half an hour was heard. Six machines are said to have been over Friedrichshafen. Details of the raid are lacking.

Berlin, Via London, April 28.—(9:20 p. m.)—Telegrams received in Berlin today from Czernowitz, the capital of Bukovina, say that the Austrians have stormed and captured the town of Bolan, to the east of Czernowitz. Bolan is the key to the Russian positions which now are thrown back to the extreme frontier of Bukovina. The attack was so surprising the despatches say that the Russian general staff barely escaped capture. The Austrian mortars are reported to have caused the heaviest losses.

Vienna, Via London, April 28.—(7:35 p. m.)—The following official communication was issued today at the war department:

"The general situation is unchanged in the Carpathians and in Russian Poland heavy artillery combats occurred at isolated points. Our artillery blew up two Russian ammunition stores. Repeated night attacks by the enemy in the district east of the height of Ostry were repulsed.

"In southeastern Galicia and in Bukovina there were no important events."

London, April 28.—(9:10 p. m.)—The following British official statement was issued tonight:

"Fighting to the north and not east of Ypres continued all yesterday. Our operations in conjunction with the French definitely stopped the German attack and it has not since been renewed.

"Since yesterday morning there have been no Germans west of the canal except at Steensstraete where they have established a small bridge head.

"The readjustment of the situation has necessitated the delivery of counter-attacks both by the French and our troops on the north of the Ypres salient.

"In resisting these counter-attacks the Germans again made use of asphyxiating gases and of shells manufactured in contravention of the Hague convention.

"On the remainder of the front there is nothing to report."

WHEAT GOES TO GIANTS.

New York, April 28.—A big deal was completed here this afternoon between the New York and Brooklyn Nationals by which Zach Wheat, the crack left fielder of the Brooklyn and regarded by many as the star outfielder of the National League, will come to the Giants.

In exchange for Wheat, Manager McGraw of New York has turned over outfielders John Murray and Dave Robertson, together with Pitcher W. D. (Polly) Peritt, to the Brooklyn.

The New York Nationals in further cutting down its roster, has released Pitcher Kirmayer to Deatur, Pitcher Press to Jersey City and infielder Reed to Troy.

## Compels All Impurities To Abandon System

Blood Troubles Can not Remain If Properly Treated.

There is in S. S. S., the famous blood purifier, a property that absolutely compels harmful influences to disintegrate and lose their identity. No matter what they are called nor how destructive they are there is in S. S. S. a powerful, searching counter influence to annihilate the most corruptive germ, causes the mucous linings to convert it into an inert substance that is quickly thrown out of the blood and out of the body by the skin, lungs, kidneys, bowels, and destroyed in the liver. There is not a single advance in medicine today that in any sense is an improvement over S. S. S. Surgery is a wonderful, masterful science, but when it comes to purifying the blood S. S. S. stands alone. Thousands of doctors have prescribed it. Their patients do not always know it is S. S. S., because they leave the treatment to the doctor implicitly. But fair-minded doctors long ago realized that in the vegetable nature of S. S. S. were certain ingredients that to the blood in sickness were just as essential as the flesh-building elements of the grains, meats, fats and sugars of our daily food. The average doctor is humane and of trained intelligence. He has seen the recoveries from worst cases of blood trouble by the use of S. S. S. Get a bottle of S. S. S. today of any druggist. Accept no substitute. And if you wish proper advice on any form of blood trouble, write to the Medical Adviser, The Swift Specific Co., 102 Swift Bldg., Atlanta, Ga. It is worth while doing so.

## Brief News Close to Home

**Accredited High Schools.**—Many of the 200 high schools in this state are endeavoring before the opening of the coming fall term to gain state recognition as "accredited schools". The list of accredited high schools in Illinois at present total 257.

**Old Colonel Dead.**—Henry Vanzelaar, old colonel of the Twelfth Illinois volunteer infantry during the civil war, former member of the Illinois general assembly, and former judge of the Fifth judicial circuit, died yesterday at his home in Paris, Ill., aged 75.

**State Grain Dealers.**—Well known grain men are to appear on the program of the twenty-second annual convention of the Illinois Grain Dealers' association, to be held in Champaign, May 12 and 13, and many will go from Jacksonville and nearby towns to attend the meetings.

**Bride Has Long Name.**—Williamson county marriage license records for long names were shattered yesterday when Frank Matus and Anna Stuginskalskitzke obtained a license. The couple are in their 20s and after the ceremony will reside at Weaver, southeast of Du Quoin.

**Cairo Herald's New Editor.**—Harris Dante, for more than four years editor of the Platt County Republican in Monticello, which position he resigned last October, has accepted a position as editor and manager of the Cairo Daily Herald, at a salary of \$2,050 a year. He will assume the position about the middle of May.

**Elks to Build at Quincy.**—The Elks have adopted a slogan, "A new home for Quincy Elks," and they are going to make a determined effort in the next several months to double the lodge membership, raise a building fund and have definitely decided when and where the building is to be erected.

**Dies by Own Hands.**—After placing a 2 year-old child out doors and locking herself in Miss Viola Downs, aged 17, daughter of George Downs of Ridge Farm, poured kerosene over her clothing and set it afire Tuesday. She died 40 minutes after neighbors kicked open the doors and extinguished the flames, leaving a note in which she wrote: "Nobody loves me and I'm going to die."

**Shot Fatal to Bootlegger.**—Ed Fitzgerald, an alleged bootlegger, died at Tuscola after having been shot by Special Officer Clint Ashwill, who is held under \$5,000 bond pending the finding of a coroner's jury. The shooting was accidental. He says he aimed over Fitzgerald's head but just as he fired Fitzgerald vaulted over a fence and the bullet struck him.

**U. C. T. State Meeting.**—The state convention of the United Commercial Travelers' association will be held at Springfield, May 12-14-15. It is expected that over 1,000 delegates will attend the meeting. The sessions will be held in the Masonic temple in South Sixth street.

On Wednesday, May 14, at 4 p. m., the big parade will take place. This will be the feature of the convention.

**Civil Service Position.**—The following head the eligible lists for the following state civil service positions:

Library organizer, Anna M. Price, Springfield; canal superintendent, John Monahan, Chicago; advanced teacher, Roberta L. Davis, Roodhouse; inspector of pharmacists, John J. Conrey, Chicago; primary teacher, Roberta L. Davis, Roodhouse.

**Engineer Wants Fortune.**—Adolphus L. Scott of Decatur, a Wabash engineer, asserts he is the son of the late R. R. Gordon of St. Louis, who bequeathed \$70,000 to the First Christian church of that city, and gave 700 acres of land to his brothers. Several suits have been filed to break the Gordon will but none mentioned the son. A motion on behalf of the son is now pending in the St. Louis probate court for distribution of such part of the estate as is governed by the Missouri law.

**Teachers Against Scott.**—A petition signed by every high school teacher save three of the Springfield high schools has been filed with the board of education requesting that no member of the present faculty be raised to the position of principal to succeed Frank D. Thomson, resigned. While the petition by its wording mentions no one, it is directed against the candidacy of John L. Scott, whose interests before the board are attended to by John G. Friedmeyer.

## PURE BLOOD.

The Greatest Blessing Mankind Can Have.

Millions of people need this powerful vegetable remedy that puts the digestive organs in fine condition; that clears the skin of pimples, rash, blemishes and eczema; that dissolves boils and carbuncles; that makes nerves stronger and steadier and gives to pale, weak, rundown people the fullest measure of health and happiness.

Dr. Pierce's Golden Medical Discovery, free from alcohol or narcotics and extracted from roots and barks with pure glycerine, does just what is stated above, simply because it banishes from the blood all poison and impure matter. It dissolves the impure deposits and carries them out, as it does all impurities, through the Liver, Bowels, Kidneys and Skin.

If you have indigestion, sluggish liver, backache over the kidneys, nasal or other catarrh, steady nerves or unsightly skin, get Dr. Pierce's Golden Medical Discovery today and start at once to replace your impure blood with the kind that puts energy and ambition into you and brings back youth and vigorous action.

All medicine dealers can supply you in either liquid or tablet form or send fifty cents for box of Tablets to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. Write for free booklet on blood.—Advertisement.

## A GREAT OFFER.

If you will cut this out and send three dimes to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., you will receive a 1,000-page book, bound in handsome cloth, fully illustrated, all charges prepaid.

DON'T FUSS WITH  
MUSTARD PLASTERS!

Musterole Works Easier, Quicker and Without the Blister

There's no sense in mixing up a mess of mustard, flour and water when you can so easily relieve pain, soreness or stiffness with a little clean, white MUSTEROLE.

MUSTEROLE is made of pure oil of mustard and other helpful ingredients, combined in the form of a pleasant white ointment. It takes the place of the out-of-date mustard plaster, and will not blister!

MUSTEROLE gives prompt relief from Sore Throat, Bronchitis, Tonsillitis, Croup, Stiff Neck, Asthma, Neuralgia, Headache, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds of the Chest (it often prevents Pneumonia).

At your druggist's, in 25c and 50c jars, and a special large hospital size for \$2.50. MUSTEROLE. Refuse imitations—get what you ask for. The Musterole Company, Cleveland, Ohio.

## FEEL YOUNG!

It's Dr. Edwards' Olive Tablets For You!

Beware of the habit of constipation. It develops from just a few constipated days, unless you take yourself in hand. Coax the jaded bowels back to normal action with Dr. Edwards' Olive Tablets, the substitute for calomel. Don't force them to unnatural action with severe medicines or by merely flushing out the intestines with nasty, sickening cathartics.

Dr. Edwards believes in gentleness, persistency and Nature's assistance.

Dr. Edwards' Olive Tablets open the bowels, their action is gentle, yet positive. There is never any pain or griping when Dr. Edwards' Olive Tablets are used. Just the kind of treatment old persons should have.

Dr. Edwards' Olive Tablets are a vegetable compound mixed with olive oil, you will know them by their olive color. Take one or two occasionally and have no trouble with your liver, bowels or stomach.

Send 25c per box. All druggists.

## The Luxury of a Lewis Six

Seated upon deep, hand-buffed leather upholstery in a car hung upon long under-slung springs, one glides over the roughest roads in absolute comfort. A ride in a Lewis Six is a jarless ride; there is no noise but the soft, rhythmic purr of a perfect motor—scarcely audible. The 135-inch wheel base, the graceful lines adapted from Europe's greatest 1915 cars, are but a few of the many attributes of perfection that are found in the wonderful

To "Have Time" You  
Must "Save Time"

Economy is talked, taught and practiced in almost every line of work but house work. There, where most essential, it is neglected.

This Is National Gas Range  
and Domestic Science Week

The primary object of this exhibition and demonstration is to teach economy of time—how to make the necessary housework so much easier and pleasanter; how actually to "save time" so that you will "have time" when something presents itself to which you really wish to devote some attention. There are many little, simple ways of economizing on time—so simple as readily to be overlooked, yet so important. Come often and learn how always to "have time."

At 10 a. m. and 2 p. m. daily will be the most interesting hours, but we will welcome you at any hour you find convenient

Our interesting Domestic Science Demonstrations will be in charge of Miss Emma Vassar, a graduate of that department of Chicago University. These demonstrations will begin each day during the coming week at 10 A. M. and 2 P. M., and the ladies of Jacksonville and vicinity are urged to so plan their work that they will miss few, if any, of these splendid sessions. Come, learn how always to "have time."

## New Gas Ranges and Heaters

We shall make an extra effort this week to thoroughly explain and demonstrate the economy and satisfaction to be obtained by the use of gas. Hot water at a moment's notice, quick meals, with everything about the house so cool, clean and delightful. Mark your engagement book so as to allow you several visits this week to our demonstrations.

**Writes After Long Interval.**

The greater part of the author's life after he reached manhood was spent in Europe and the book was not written until long after he had visited the scenes about which he was writing. The book furnishes a new story of the Lincoln-Douglas debate; tells many an incident about Alton, St. Louis, and early traffic on the Mississippi. Camp-meetings, picnics, hunts and various incidents of pioneer life are retold in somewhat picturesque language, and various legends, too, are recounted, which have become closely linked with the history of this section, if they are not properly a part of it. Names and dates and places are mentioned with such exactness that one cannot but be impressed with the marvelous memory of the man who has written of these things fifty years after they happened.

Local residents will be much interested in the author's story of Gen. Grierson's famous raid, with which they are more or less familiar but Mr. Grierson as a member of the family and as an ardent admirer of his famous cousin, has been able to add some details which are not commonly found in the historical sketches of that raid.

**Author a Musical Prodigy.**

Probably more interesting than the subject matter itself are the facts about the author set forth in the publisher's note. Francis Grierson was born in Cheshire, England, Sept. 1848, and a few months later his parents emigrated to America to join relatives already settled in this state. As already mentioned, he is a cousin of the late Gen. B. H. Grierson and is so a direct descendant of Robert Grierson, "The Red Gauntlet" of Scott's famous novel. His father became an American citizen, helped to elect Lincoln, and returned to England in 1871. The author of the volume mentioned, who early developed remarkable musical gifts, preceded his father in his return and was introduced to the social and artistic houses of Paris in the late '60s by Alexander Dumas and soon became acquainted with the social, artistic and political leaders of the times. Without money or letters of introduction, and without aid from anyone, he became the musical celebrity of the day.

"Up to this time Chopin had been regarded as the last word in the domain of musical inspiration and the magical art of improvisation. The new prodigy evoked not only the characteristics of past musical epochs, but the musical soul of ancient Egypt, Assyria, Palestine and Greece. He would pass from a suave melody of the Italian school, or from the symphonic music of the German to a languid melody of the East, or the pomp or melancholy of Nineveh or Babylon, and it is said that at certain wonderful moments he could add the strangest, most inexplicable voice that did not follow the music but went along with it although independent of it, rising up from the middle chords of the piano, faintly at first and at last filling the room with indescribable and thrilling tones." Improvisation was the real key to the power. The performer himself never knew what would or could be done.

**In European Capitals.**

Mr. Grierson restricted his performances to the mansions of cultured people and the salons of musical leaders. He had remarkable success in Paris, and from there went to London, where he was received with equal attention. Then his successes were repeated in Baden, St. Petersburg and Berlin, and it was at the latter city that he was invited by King Albert of Saxony, the soldier musician, to dedicate the queen's new music room in the Strelitz palace. His most striking success, however, was achieved during his farewell visit to Paris, for lectures were given in an effort to explain from a theosophical point of

view how a person ignorant of the science of music and without musical instruction could produce such a variety of musical styles, startling effects, unheard of combinations of tone and harmony.

**Began Literary Work.**

Mr. Grierson gave up music in the midst of his greatest triumphs, to get down, as he said, to serious work. He believed that his musical career had been but a schooling for the art of writing. He decided to make his long contemplated plunge into the sea of literature. He chose Paris for the experiment and French as the medium of his thought. The volume was composed of critical essays and after its appearance its author was hailed by critics as a prose writer of the first order. Then Mr. Grierson issued two volumes in English, one "Modern Mysticism", the other "The Celtic Temperament" and both brought him recognition as a stylist and a thinker.

The volume in the Jacksonville library is an entirely different field of literary endeavor, and while the author considered it a labor of love, he also had the hope that it might form something of a substantial contribution to the historical annals of "The Lincoln Country."

**COUNCIL FINDS TOTALS IN ELECTION VOTE CANVASS**

No Official Declaration of Result Until City Attorney Gives Opinion—Some Slight Changes.

The official canvass of the vote cast in the last election was completed by the city council Wednesday morning, the result showing very slight change from the unofficial returns as already published. No reason was adopted setting forth the names of the officers elected, as the council has not yet received an opinion from the city attorney as how to proceed with the returns in No. 4 and No. 6.

In district No. 4, there was no tally shown on the vote for mayor, merely the totals being given, and in district No. 6 the tally sheet did not show the vote for member of the board of education or on the two propositions submitted. The figures are probably correct, but the council could not canvass these returns because the tally record had been sealed with the ballots. It is likely that the city attorney will suggest that the judges of election be called in and open the ballot bags in the presence of the council and take out the tally sheets. There is no possibility of any change in the result, but some formality of this kind will have to be carried out before the council can take the customary action of declaring by resolution the men who have been elected.

There was no interest in the slight changes made in the canvass except as to the vote cast for J. Edgar Martin and George P. Davis. In district No. 6 Davis gained one and Mr. Martin lost one, and in district No. 7 Mr. Davis lost one. The official totals give Mr. Martin, 2875 and Mr. Davis, 2860, a majority of 15 for Mr. Martin. This total for Mr. Davis is exactly the same as printed in the Journal the day after election and the figures previously accredited to Mr. Martin were 2876.

The official vote for mayor was, Henry J. Rodgers, 3531; George W. Davis, 2254.

## WILLIAM BRITENSTINE FOUND DEAD AT HOME NEAR MURRAYVILLE

Coroner Geo. W. Wright Holds Inquest and Finds Death Due to Heart Disease.

William Britenstine of the Nortonville community was found dead in bed Wednesday afternoon. Fred Britenstine testifying before the jury empaneled by Coroner Wright said: "About two o'clock Wednesday afternoon I started from the house to work and returned about three o'clock and found Mr. Britenstine lying on the bed. I tried to awaken him and found he was dead. He was about 70 years of age. His health had been poor for a year and the doctor said it was leakage of the heart." William H. Cox testified "that Mr. Britenstine was at his house Tuesday and complained of having trouble with his heart." C. H. Hopper said "that two weeks ago Mr. Britenstine had a bad spell with his heart but seemed to be in his usual health Wednesday morning."

The jury, was composed of Lee M. Carroll, foreman, L. B. Seymour, W. U. Osborne, J. T. Wild, J. E. Thompson and F. L. Hargrove, clerk. They gave in a verdict of death "being due to leakage of the heart of long standing."

## FUNERALS

### Rayborn.

Funeral services for Mrs. Emeine Rayborn were held Wednesday afternoon at 2:30 o'clock at the Christian church in Concord and interment was made in Concord cemetery. The Rev. Myron L. Pondus, pastor of Central Christian church, this city, gave the address and Rev. W. P. Bowman of the Concord M. E. church assisted with the services. Many friends were present and the floral tributes, brought in great profusion, bore testimony of the high regard of many sorrowing friends.

"I can do all things through Christ," quoted the pastor in beginning a talk of prayerful earnestness in which was brought out the lesson that Christ is the bringer of faith, hope and love. The choir of the church furnished music, with the assistance of a quartet composed of Earl Sanders, Spencer Smith, Miss Delia Deterding and Miss Maudie Stevens. The singers were accompanied on the piano by Mrs. Arthur Hamm. The bearers were Geo. Lewis, Charles W. Bayless, Perry Leonard, Ed. Willard, Eugene Kratz and J. W. Blumling.

Among the relatives present from without Concord were Lewis A. Rayborn of Independence, Mo.; Mr. and Mrs. Henry S. Rayborn, Mr. and Mrs. Amos May and Miss Maudie A. Taylor, Jacksonville; W. A. Taylor and Newton Rigler of Beardstown; Mr. and Mrs. J. R. Black of Ellettsberry and Miss Ethel M. Rayborn of Centerville, a grand-daughter of Mrs. Rayborn.

## 'APATA FORCES CUT OBREGON'S COMMUNICATIONS WITH VERA CRUZ

Villa Has Received Thousands of Rounds of Ammunition and Has Concentrated 35,000 Men for Attack.

Washington, April 28.—Activity on the part of the Zapata forces who are operating behind the army of General Obregon, the Carranza commander and threatening to isolate him from his base at Vera Cruz attracted most attention here today in the Mexican situation. While some official reports to the state department said that Zapatistas apparently had been successful in cutting Obregon's communications with Vera Cruz the extent of the break or the ability of the Carranza commander to restore his lines was not indicated. General Villa has received thousands of rounds of ammunition and has concentrated what his agents here estimate as an army of nearly 35,000 men to attack General Obregon, the battle being expected within a week. The Zapata forces numbering several thousand have cut the railway between Celaya, General Obregon's headquarters and Vera Cruz and an early report to the state department said the train on which Duval West, President Wilson's personal representative and a number of foreigners were traveling had been delayed enroute. Later advices tonight said the train had been permitted to proceed but it was not clear whether this meant a repair of the railroad or the recognition by the Zapatistas of the special arrangement made at Mexico City by the Villa-Zapata authorities for the passage of this train.

TO STUDY FORTIFICATIONS. Washington, April 28.—All commanders of coast defense districts have been instructed by Secretary Garrison to make a thorough study of the fortifications under their charge and submit recommendations for improving and bringing them up to date. Those reports, Mr. Garrison said tonight, will be combined with data originating here for the use of the recently created general board of defenses in preparing an outline of the proposed permanent national military policy.

ROCKEFELLER COMMISSION REPORTS ON DISEASE. New York, April 28.—The Rockefeller foundation for relief commission made public tonight a report on destitution and disease in Serbia in which it is stated that on March 19th, probably from 25,000 to 30,000 persons were suffering from typhus in Serbia and that this and other epidemics were "swiftly enveloping the entire nation."

## SOCIAL EVENTS

### Sunday School Classes

Two large Sunday school classes of Grace M. E. church, taught by Prof. Charles A. R. Stone, and Mrs. J. W. Miller, held a picnic luncheon Tuesday evening at the home of William Barbre, four miles southwest of Jacksonville. The trip was made in automobiles, leaving Grace church at 6:30 o'clock. The commodious home was placed at the disposal of the class and it is hoped that similar that the hospitality of Mr. and Mrs. Barbre was greatly appreciated. Mrs. Barbre gave a number of delightful readings. Each one took a lunch and the good things to eat were greatly enjoyed. Both classes have received a great impetus as the result of the recent Sunday school convocations brought to Tallula for social gatherings may be held in the future.

### "Alaska" Theme of Tuesday Club.

The East Side Tuesday club met this week at the home of Mrs. Charles Ratacnak, 416 South East street, and the gathering was attended by more than usual profit and pleasure. "Alaska" was the theme of the afternoon. Mrs. Charles Glossop discussed the resources of our northern possession and Mrs. George Hocking told of topography and scenery. Next week the club will meet with Miss Courtney Crouch, 117 Finley street, and the program will be in charge of Miss Isabel Smith, professor of biology at Illinois college.

### Mrs. Thomas Harber Gives an Informal Tea.

Yesterday afternoon at her pleasant home on Webster avenue, Mrs. Thomas Harber gave an informal tea which was a delightful social event. The function was in honor of Mrs. Harber's guests, Miss Marie Clendennin and Mrs. Oscar Zeile, both of Springfield. Excellent refreshments were served and the hours were much enjoyed by all present. Those assisting in the various rooms were Mrs. George Orear, Mrs. Walter Bell, Mrs. Will A. Fay, Misses Lillian Davis, Mary Wadsworth, Annie Bellati, Esther Davis and Bessie Harrison.

### Party for I. S. B. Boys at Christian Church.

The young men students of the Illinois School for the Blind attending Central Christian church were entertained in the church parlors last evening at the close of the mid-week prayer meeting service. A musical program of merit was followed by the serving of refreshments. A string quartet composed of Mrs. E. C. Carpenter, Byron Carpenter, Earl Briscoe and Paul Morrison rendered three selections and the numbers given by the boys from the Blind school were:

Piano solo—Hubert Grey.  
Piano solo—Harold Wright.  
Vocal solo—Everett Crawford.  
Reading—Fernando Oldham.  
Piano solo—Frank Myer.

## STATES CHILDREN CAN AID IN CAMPAIGN FOR PREACHERS' FUND

R. T. Ivy Says Care of the Church's Dependents Has Been Left too Much to Sentiment.

Chicago, April 28.—The 4,295,000 children claimed by the Methodist church can be made a source of contributions for the campaign to raise ten million dollars for retired ministers and their widows and orphans. The Rev. Frederick T. Keeney of Syracuse, N. Y., told the convention of conference claimants here today.

"On Veteran's day, May 2nd," said Mr. Keeney, "the children's crusade can be furthered by giving the youngsters some part in the morning service, a song perhaps. They may also, with profit, on that day provide flowers for the church and in the Sunday school by recitations or stories, by class exercise arouse interest in the old preachers."

R. T. Ivy of Nashville, Tenn., editor of the Christian Advocate of the Methodist church south, said said that the general situation confronting the church is that there are now thousands of preachers, widows of preachers or their orphans who were supported by the church but when their strength wore out in the cause the support was withdrawn.

Care of the church's dependents has been left too much to sentiment, he said, and systematic effort such as is now being made is necessary.

JACKSONVILLE LODGE NO. 570. A. F. and A. M. special meeting at 6 o'clock for work. Lunch will be served. Visiting brethren welcomed. C. A. Rose, W. M. E. L. Kinney, Sec.

Joseph Freuchie Dies at Home in  
St. Louis.

Funeral services for Edward S. Young will be held today at the residence of Mac Young, son of the deceased, at 3 o'clock and burial will be made in the family plot near the Young homestead. Mr. Young passed away Tuesday evening at 8:30 o'clock at the advanced age of 81 years, 5 months and 9 days. He was a life-long resident of the Winchester vicinity and is numbered among Scott County's most honored pioneer citizens.

Surviving Mr. Young are two sons and a daughter: Mac Young, three and one half miles southwest of Winchester; Mrs. William Carey of Winchester and Thomas Young of Nebraska. The services today will be in charge of the Rev. E. G. Prewitt, pastor of the Christian church, of which the deceased was long a member.

Mrs. Freuchie Dies Wednesday.

Winchester relatives are in receipt of word telling of the death of Mrs. Joseph Freuchie, who passed away at her home in St. Louis Wednesday afternoon. Mrs. Freuchie's maiden name was Gertrude Garrette and she was born and reared in Winchester. She leaves Mr. and Mrs. James Garrette, her parents; a married sister in Jacksonville and three sisters besides, Mrs. Joseph Eddings of Winchester and Mrs. Golda Learned and Miss Winifred Garrette of St. Louis.

The body will be brought to Winchester for burial and will probably be laid to rest Friday.

Son of John Kuck Dies.

Austin Richard Kuck, son of Mr. and Mrs. John Kuck, died Tuesday evening at the family home after several days of illness. The young man was eighteen years and three months old when death came.

Funeral services will be held from the residence today at 2:30 o'clock, with the Rev. J. F. Rogers in charge.

JOIN IN FILING  
BANKRUPTCY PETITION

Members of the McNeely Family Seek to Close Financial Difficulties.

In Springfield yesterday members of the McNeely family who live in the Murrayville vicinity filed voluntary proceedings in bankruptcy. They schedule total liabilities of \$66,565.29 and total assets \$39,848.00. It is understood, however, that the failure is not as large as the figures indicate, as the schedules filed separately have a number of items duplicated. There seems to be also some errors in figures as J. E. Osborne of the Murrayville bank said last night that George E. McNeely whose schedule showed an indebtedness of \$5,000 to the Murrayville bank, in fact owes but \$375.66. This latter sum is made up of several small notes and most of them are amply secured.

There are said to be some other inaccuracies in the figures filed which will materially reduce the total. The four who filed schedules were Bert McNeely, liabilities \$3,878.88, assets \$20,321; George M. McNeely liabilities \$8,395.13, assets \$8,520.00; Alpha McNeely, liabilities \$9,520.00, assets \$170; George E. McNeely, liabilities \$9,862.15, assets \$10,237.00.

Among the principal creditors are Joseph Yingling, H. G. Keplinger, W. A. Berryman, C. C. Berryman, J. T. Mutch, Scottville bank, J. R. and James Black, Franklin bank, William Luken, Con Loneragan, J. Crouch and son, and Murrayville bank. Quite a number of these creditors had already instituted foreclosure proceedings in the Morgan county circuit court for the collection of their claims which are in a number of cases well secured.

UNTERMEYER IS RETAINED TO  
ASSIST IN DEFENSE OF M'ADOO

Announcement is Made After Conference Between Untermyer, Gregory and Brandeis.

Washington, April 28.—Samuel Untermyer of New York has been retained by the department of justice to assist in the defense of the injunction brought by the Riggs National Bank against Secretary of the Treasury McAdoo, Comptroller of the currency Williams and Treasurer John Burke. This was formally announced tonight after a conference between Mr. Untermyer, Attorney General Gregory and Louis D. Brandeis who has been retained as chief counsel for the government in the proceedings. Mr. Untermyer was counsel for the famous congressional "money trust" investigation committee and is an authority on banking conditions and financial relations throughout the country. He was consulted freely by the framers of the federal reserve act. The hearing on the petition of the Riggs Bank for injunctions against the treasury officials will begin in the District of Columbia supreme court May 12th. The petition charges Secretary McAdoo and Comptroller Williams with conspiracy to wreck the bank.
